

Treasure hunt

Materials:

- 6 empty yoghurt pots
- 6 circular pieces of paper (red, yellow, green, blue, white and black)
- Glue
- a die with the six colours above
- sweets

The first step is to stick the pieces of paper to the bottom of the yoghurt pots. The pots are then placed on a table with the bottom side facing up while the sweets are "hidden" under the pots. Each player then takes a turn to throw the die. The colour of the throw and the colour of one of the pots must be matching in order to be able to turn over one of them and find the "treasure".

When playing with older children, it might be a good idea to characterise the pots with a number from 1-6 or the pattern of dots on the die.

Enjoy!

Number of players: 2+
 Playing time: as long as you like
 Age: 4+
 Materials: see above
